

# FACT SHEET

## PROJECT DESCRIPTION

Fairbanks International Airport (FAI) is preparing the FAI Eastside Master Plan Update, with the help of DOWL, an airport planning firm.

This master plan will update FAI's 20-year plan for airport development, with a focus on safety issues and near-term planning for the existing East Ramp infrastructure. FAI plans to resurface and improve the East Ramp apron in 2020.

### *What is a Master Plan?*

A master plan is a comprehensive study of an airport that usually describes the short-, medium-, and long-term development plans to meet future aviation demand. The documents produced from the Master Plan process are: 1) 20-year phased development plan with a capital improvement program; 2) an Airport Layout Plan and 3) the Airport Master Plan Report.

### *How can you participate?*

Go to the Documents tab on the website to review the Alternatives and then fill out the comment form to let us know how the specific alternative should be edited or how the specific alternative will benefit you or your business.

## PROJECT TIMELINE

March – August 2018	Investigation	<ul style="list-style-type: none"><li>• Airport Inventory</li><li>• Based Aircraft Forecast</li></ul>	<ul style="list-style-type: none"><li>• Issues</li><li>• Airport Needs &amp; Requirements</li></ul>
